

**You'll "bee" amazed by how important honeybees are!**  
**One out of every three bites of food we eat is thanks to them. To make just one pound of honey, bees visit around 2 million flowers! A single bee makes only about 1/12 teaspoon of honey in its lifetime. Their wings buzz 11,400 times a minute, and they do a special "dance" to tell other bees where to find flowers.**
