

PECAN: GEORGIA'S OFFICIAL STATE NUT

Georgia ranks #1 in the nation in pecan production! There are more than 140,000 acres of pecans planted in Georgia and those pecans are usually harvested between September and November. (An acre is about the size of a football field.) The Albany area is known as the "Pecan Capital of the World" due to the number of pecan trees in that area, more than 600,000! To find a pecan farm near you visit gfb.ag/cfm.
