**FARM
BUREAU**
GEORGIA

88th GFB Annual Meeting
December 7-9, 2025

WELCOME

to the 88th Annual Georgia Farm Bureau Convention!

Thank you for taking time away from your farm to join us for this important event. As we celebrate 88 years of serving Georgia's farm families and advocating for agriculture—the state's largest industry—it's incredible to reflect on how far we've come since 1937. While much has changed since our humble beginnings, the future ahead of us is what truly excites me. Imagine where we will be 88 years from now!

The strength of Georgia Farm Bureau lies in our unity and unwavering grassroots support. This year's policy development process will once again set the course for our advocacy at both the state and federal levels, and your involvement is key. Your insights and participation help secure the future of Georgia's farms and rural communities. I encourage you to take full advantage of the opportunities offered at this convention to learn and engage in topics that matter most to your farm.

Jekyll Island has long been our gathering place, and we are delighted to continue this tradition on such a beautiful island. This is the time to reconnect with old friends, build new relationships, and strengthen our shared vision for agriculture.

Thank you for your leadership, your commitment, and for allowing me the privilege to serve you as Farm Bureau President. I hope you enjoy your time with us and leave inspired for the work ahead.

OUR PURPOSE

The purpose of the Georgia Farm Bureau Federation, as the largest general farm organization in Georgia, is to provide leadership and assistance to the agricultural sector, to promote farm products, to aid in agri-related procurements, to be a spokesman for the farmer in the legislative arena, to be a leader in the development and expansion of farm markets, to strive for more agricultural research and educational funds and facilities - in essence - to use the Georgia Farm Bureau organization and its facilities as the vehicle with which to assist in providing farm families a fair and equitable standard of living and to ensure the existence of agriculture as a vital and thriving industry in the future.
