WHY FIELDLOCK?

Most farms use generic ad hoc tools to accomplish their daily administrative tasks -- pen and paper for timekeeping, SMS and camera apps for note taking. This works great... until it doesn't. If a pay dispute arises, or a DOL inspector visits the farm, accurate records are vital to avoid costly outcomes.

The FieldClock platform was built by farmers to empower your members with easy-to-use apps that track farm activity and streamline payroll with minimal effort and training required.

WHO NEEDS FIELDLOCK?

While initially designed for farms, FieldClock is an essential tool for ANY business with payroll and compliance record-keeping requirements. Over the past decade FieldClock has expanded from a timeclock for orchards to a powerful record-keeping platform for farms, ranchers, dairies, forestry, and even firefighting! If you have employees, or run payroll for small businesses with employees, you need FieldClock.
